### Mayor's Report

I have mentioned in this newsletter before that the success of our community depends on volunteers that are willing to serve. A prime example of this volunteer spirit is Cindy Johnson. I served alongside Cindy as a member of the city council for six years. During that time I found Cindy dedicated to providing the best representation to the citizens of Lewiston City as possible. She was always prepared and her judgment and insight into issues was always the best.

During her time on the council Cindy was the representative responsible for planning and zoning. She gained a thorough education on the issues and challenges facing the planning and zoning function. She also came to know the planning and zoning process. After her time on the city council I asked her to serve as the chair of the planning and zoning commission. She has served faithfully in that position for the past five years.

I thank Cindy for her willingness to serve in this difficult position for all of these years. I thank Cindy for the big jobs she has been willing to accept and to see through to completion. Cindy is just one of many dedicated volunteers that make our community for their willingness to sacrifice to make our community a good place to live.

As always if you have any issues or concerns that you would like to address with me please contact me at [mayorfield@gmail.com](mailto:mayorfield@gmail.com) or 258.2194.
